

SLAMF8-high macrophage state and matched HSC activation in MASLD/NASH Cohort colors: GSE344087 blue · GSE298719 orange · GSE212837 green

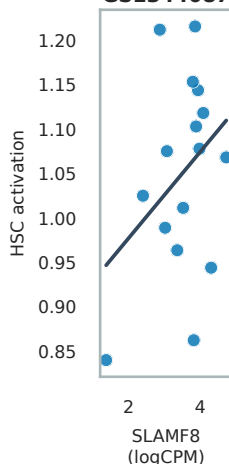

A SLAMF8-high versus low macrophage state

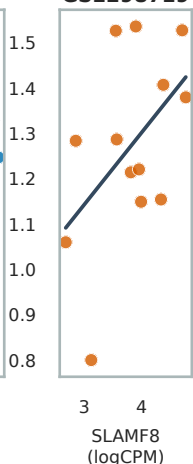

B Disease/fibrosis differences

C GSE344087

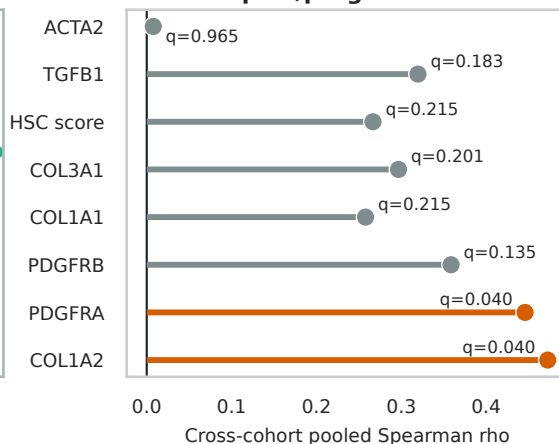

GSE298719

GSE212837

D HSC receptor/program association

Effects are patient/sample-level associations; no panel establishes causality.
